

## Do-It-Yourself Customization for Your Structured Reporting Solution

CardioDoc Toolkit can help you take full advantage of the versatility that CardioDoc offers. Physician structured reporting becomes even more streamlined and straightforward when you customize your software to your hospital's workflow. Toolkit enables you to refine CardioDoc in order to meet the specific data requirements of your facility, reduce the time it takes to document patient clinical data and ensure data integrity for reporting.

What you can do with CardioDoc Toolkit:

- Add custom data elements
- Modify workflow to match established processes
- Organize data into clearly defined tasks

As a Visual Basic program, CardioDoc Toolkit is both powerful and easy to use. Toolkit features a specially designed, intuitive user interface that our clients find simple, straightforward and natural.

The screenshot displays the CardioDoc Toolkit application window. The main area contains a table for configuring workflows. The table has columns for Workflow Name, Display Name, Table Name, Sequence, and Attributes. The table lists various medical procedures and their corresponding data requirements. On the right side of the window, there are buttons for Copy, Save, Reset, Refresh, and Delete. The status bar at the bottom indicates the application is connected to a database and is ready.

Workflow Name	Display Name	Table Name	Sequence	Attributes
Lumedx.Demographics	Demographics	Demographics	10	CardioDocWorkflow
Lumedx.CTMR.CTPhysician	CT Physician	Event_CardiacCTMR	10	CardioDocWorkflow
Lumedx.CTMR.CTTechnician	CT Technician	Event_CardiacCTMR	20	CardioDocWorkflow
Lumedx.Echo.PharmStress	PharmStress	Event_Echo	30	CardioDocWorkflow
Lumedx.Echo.Rest	Rest	Event_Echo	10	CardioDocWorkflow
Lumedx.Echo.Stress	Stress	Event_Echo	20	CardioDocWorkflow
Lumedx.Echo.TEE	TEE	Event_Echo	40	CardioDocWorkflow
Lumedx.EP	EP Procedure	Event_EP	10	CardioDocWorkflow
Lumedx.Nuclear	MPI	Event_Nuclear	10	CardioDocWorkflow
Lumedx.PVI	PVI	Event_PVInvasive	10	CardioDocWorkflow
Lumedx.Surgery	Surgery Procedure	Event_STS	10	CardioDocWorkflow
Lumedx.Cath.2MDDiagnostic	2 MD Diagnostic	Event_Cath	30	CardioDocWorkflow
Lumedx.Cath.2MDInterventional	2 MD Interventional	Event_Cath	40	CardioDocWorkflow
Lumedx.Cath.Diagnostic	Diagnostic	Event_Cath	10	CardioDocWorkflow
Lumedx.Cath.Interventional	Interventional	Event_Cath	20	CardioDocWorkflow
Lumedx.Cath.Technician	Technician	Event_Cath	50	CardioDocWorkflow
Lumedx.GenMC.Cath.Diagnostic	Diagnostic	Event_Cath	10	CardioDocWorkflow
Custom.Echo.rest	Rest	Event_Echo	10	
Lumedx.Cath.EventInformation	Event Information	Event_Cath	70	
Lumedx.Cath.PatientEventInformation	Patient & Event Information	Event_Cath	60	
CentralMichigan.Cath.Diagnostic	Diagnostic	Event_Cath	80	CardioDocWorkflow
CentralMichigan.Cath.Allergies	Allergic To	Event_Cath	90	CardioDocWorkflow
JMCGeneral.Demographics	Demographics	Demographics	10	CardioDocWorkflow
Lumedx.Echo.EventInformation	Event Information	Event_Echo	60	CardioDocWorkflow
Lumedx.Echo.PatientEventInformation	Patient & Event Information	Event_Echo	50	CardioDocWorkflow
JMCGeneral.Cath.Diagnostic	Diagnostic	Event_Cath	10	

Navigation and design provide maximum usability in an easy-to-learn format.

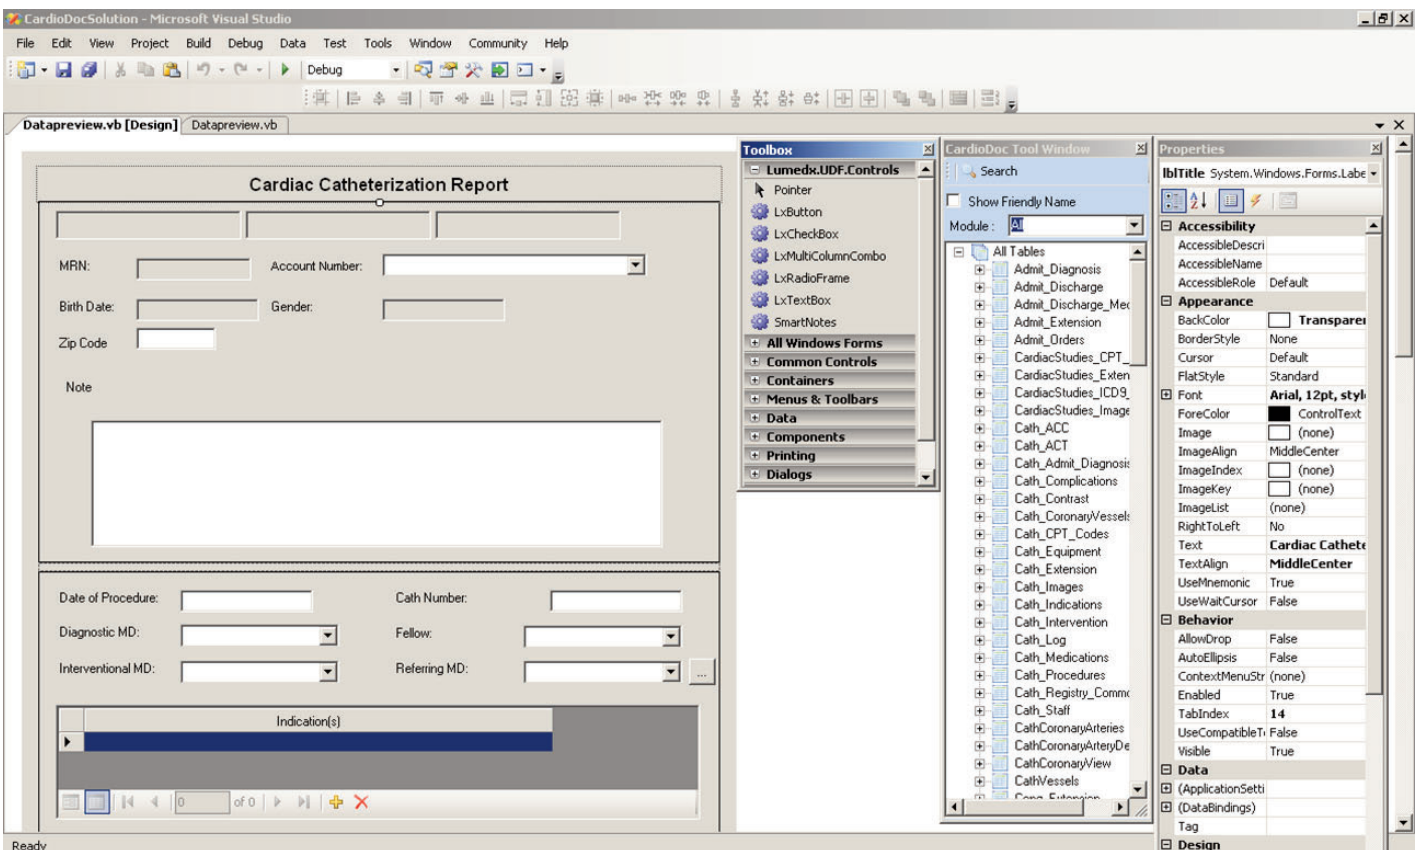

## Complimentary Training with Every Toolkit

CardioDoc Toolkit Training comes standard with Toolkit. This two-day training course teaches users the ins and outs of customizing CardioDoc. The class also devotes significant time to working on client-specific requirements. No prior knowledge of programming in Visual Basic is required. Leave Toolkit Training knowing that you can expertly modify CardioDoc for your facility.

Toolkit helps you get the most out of your CardioDoc system. With it, you can achieve your specific reporting and documentation goals, such as:

- Customizing reports for different stakeholders
- Providing an easy way for physicians to review procedural data and complete structured reports that improve patient care
- Reducing the paperwork required to document patient clinical data

CardioDoc Toolkit is the key to flexible documentation that truly meets your facility's needs. It's designed to make learning and applying the tools needed to customize CardioDoc easy. And because Toolkit enables you to make changes quickly, you can readily adjust to the evolving needs of your facility.

*CardioDoc Toolkit provides all the tools needed to customize your CardioDoc Workflows in one easy-to-use format.*

**About LUMEDX:** With over 500 heart center clients worldwide, LUMEDX is the market leader in fully integrated cardiovascular information systems and the No. 1 independent integrator of cardiology information solutions. LUMEDX offers the most proven, comprehensive package of clinical information tools, cardiovascular products, and services to help medical institutions enhance quality of patient care, reduce costs, streamline workflow, increase patient volume and grow revenue.
