

LUMEDX & IHE

INTEGRATING THE HEALTHCARE ENTERPRISE

Integrating the Healthcare Enterprise (IHE) is a multi-year initiative that creates the framework for passing vital health information seamlessly—from application to application, system to system, and setting to setting—across the entire healthcare enterprise. IHE is a unique collaboration between clinicians and vendors focused on practical solutions to real-world data-sharing problems.

First and foremost, LUMEDX is dedicated to the success of our clients. This driving philosophy is reflected in our continued efforts to work with third-party vendors that support our clients. LUMEDX has been actively participating in development of IHE Cardiology Technical Framework. We are an official IHE sponsor at the "Supporter" level.

LUMEDX is committed to the goals and ideas of the IHE and the benefits that it will bring to our clients and their patients.

About LUMEDX: With over 600 heart center clients worldwide, LUMEDX is the market leader in fully integrated cardiovascular information systems and the No. 1 independent integrator of cardiology information solutions. LUMEDX offers the most proven, comprehensive package of clinical information tools, cardiovascular products, and services to help medical institutions enhance quality of patient care, reduce costs, streamline workflow, increase patient volume, and grow revenue.
