LUMEDX Clients Top Best of Heart Hospital Lists

OAKLAND, CA – LUMEDX Corporation, the market leader in providing fully integrated cardiovascular information systems, announced today that among those institutions honored in 2006[†] by five Best of Heart Hospital lists for their excellence in patient care, operations, and use of technology, a commanding number are LUMEDX clients:

- **54% among U.S. News & World Report Best Hospitals**
- **46% among Most Wired Hospitals**
- **30% among the Solucient 100 Top Hospitals**
- **47% among the Top 100 Integrated Healthcare Networks**
- **44% among the The Leapfrog Group Top Hospitals**

“This year’s Best Hospital lists continue to reflect the fact that when top hospitals choose a Cardiovascular Information System, they choose LUMEDX far more frequently than any other vendor—today we are proud to serve more than half of the US News Top 100,” said Allyn McAuley, CEO of LUMEDX Corporation. “We are also very pleased that nearly half of the Top 100 Integrated Delivery Networks have chosen our products, indicating that our focus on integration of data across multi-campus enterprises is going to be increasingly critical to delivering higher quality cardiac and vascular care.”

LUMEDX enables heart centers to consolidate clinical, operational and financial data—both text and images—across the cardiology and vascular service lines, promoting fast, single-point-access to clean, precise information. LUMEDX offers the most proven, comprehensive package of clinical information tools, cardiovascular products, and professional services to help medical institutions enhance quality of patient care, reduce costs, streamline workflow, increase patient volume, and grow profitable revenue.
