

FOR IMMEDIATE RELEASE:

Achieve Measurable Results Through CVIS Webinar

**How to Use CVIS Data to Support Quality Initiatives and
Provide Instant Feedback on Performance**

OAKLAND, Calif., March 5 /PRNewswire/ — Attend Best Peer Practice “Achieve Measurable Results Through CVIS” and learn about the data integration/ data management tools that Sutter Health successfully deployed to enable physicians, clinical and administrative staff to make better decisions, faster.

Sutter Health’s Kyle B. Smith, Cardiovascular IS Manager, and Senior Systems Analysts CVIS Al Tanabe and Joni Kenner will share how the program’s CVIS became an essential solution in helping Sutter meet quality initiatives, enhance patient satisfaction and achieve greater efficiencies in financial performance.

Best Peer Practice Achieve Measurable Results Through CVIS will be held on Thursday, March 19, 10am PST.

Visit <http://www.lumedx.com/AchieveResults/> to register.

WEBINAR HIGHLIGHTS:

2 Case Studies:

- How Marin General Hospital deployed telemetry, streamlined workflow and monitored key metrics to achieve a 49.4 minute door-to-reperfusion-time for STEMI patients – and how it plans to further improve program results
- How Sutter VNA & Hospice with Alta Bates Summit Medical Center provide close management of Heart Failure patients
- How CVIS can be used to support quality initiatives
- How CVIS can bridge the gap between clinical and financial systems
- Developing rapid response systems: how you can make use of clinical indices and trending data for real-time measurement of performance goals
- How to develop tighter billing practices using CVIS data collected at the point of care
- Tools to support Pay-for-Performance initiatives
