

DATA PROBLEMS

REQUIRE

DATA SOLUTIONS

In a typical hospital...

2 = 1
hours of patient care = hour of paperwork¹

18%
of errors come from inadequate information³

60%
of data is unstructured²

1. "Patients or Paperwork? The Regulatory Burden Facing America's Hospitals", PwC and American Hospital Association.
2. "Unstructured data a common hurdle to achieving guidelines", Health Management Technology, June 2012.
3. "The Integrated Patient Record: Empowering Patient-Centric Care", IDC Health Insights, October 2013.
